## General Rules for All Matches

**Ammunition:** Any safe ammunition. Supplied by the competitor - Rule 3.17.

**Bolt Closing:** All competitors shall close the bolt *only* when the rifle is parallel to the ground and pointed in the general direction of the target. This applies in offhand, sitting and prone rapid fire and prone slow fire. It is not permissible to close the bolt at any other time than with the rifle horizontal and pointed at the targets or berm. In the offhand position, while placing the rifle in the shoulder, the finger shall not be inside the trigger guard until the rifle is horizontal and pointed at the correct target. The Line officer will issue and record a warning to any competitor that is observed doing this. The second occurrence will immediately result in that shooter being disqualified from the remainder of that match. Range Rule to prevent launching rounds over the berm.

**Brass and Trash Call:** There will be a brass and trash call after each relay change. All brass and trash are to be picked up by the competitor before he clears the line.

**Camping:** Limited dry camping is available on the range. We have room for RVs, Trailers or Tents - with electricity these sights will be \$10 per night. Tent camping, not requiring electricity, will be free. Mosquitoes are available for a nominal fee.

**Cancellation:** If a match is cancelled, and not rescheduled, a refund will be given after all costs of all matches are paid.

**Challenge Period:** The challenge period for posted scores shall last for 20 minutes after the pits are unsealed and all firing is complete. The official scores will be posted on the Match Bulletin board under the tent or shelter at the 600-yard line. Such a challenge shall be by written request on the forms provided and given to the Stat officer or Match Director.

Rifle and sling will then be inspected for improper external modifications. Trigger will be weighed using NRA approved weight set bearing on the trigger while the rifle is held with its barrel vertical and slowly lifted straight up. To pass the rifle must lift the weight clear of the supporting surface and suspend the weight. The rifle will then be "jerked" upward to verify that the trigger falls. If the rifle cannot be made to lift and suspend the 4-½ pound weight, the competitor may perform the test. Rifles can be retried after failing until the time to weigh triggers has expired. Rifles may be sealed after weighing. The top 15% of finishers will be re-weighed after the match is completed.
